

GET THREE JURORS FOR TEIPER TRIAL

Defendant Laughs and Chats As Talismen Are Examined.

SUMMON EXTRA PANEL

Indications Are That Several Days Will Elapse Before Jury Is Completed

Buffalo, Nov. 15.—Three jurors were selected from 32 talismen examined today in the trial of John Edward Teiper, charged with the murder of his mother, Mrs. Agnes Teiper, on the Orchard Park road on January 30. An extra panel of 75 men was summoned and indications were that it might be several days before the jury is completed.

The jurors chosen today were Charles M. Brewster, a carpenter, 58 years old; Frederick W. Long, a farmer, 29 years old; and Reese Phillips, a contractor's foreman, 61 years old. All are married and all have children. The mothers of two are dead.

Base Case on Circumstantial Evidence.

Questions put to talismen by District Attorney Guy D. Moore indicated that the case of the people would be built on circumstantial evidence. The district attorney rejected all who had prejudices against conviction on evidence purely circumstantial. Five of his 30 preemptory challenges were used by Mr. Moore to dismiss talismen who had formed an opinion in the case, although they maintained that their opinion would not influence their verdict. The defense used none of its preemptory challenges. Edward R. O'Malley, former attorney general, and chief of counsel for counsel, in his questions and stress upon the value of previous character as weighing against circumstantial evidence and establishing reasonable doubt.

District Attorney Moore agreed to a proposal of the defense that the testimony of Miss Grace Teiper, sister of the defendant, and the only other survivor of the tragedy, be taken by deposition at her home. He made an exception, however, that in the event that Miss Teiper is called by the prosecution that she will have to appear in court. Justice Wheeler took the question under advisement.

Teiper listened to the examination of talismen without any signs of worry. His young wife sat beside him at the counsel table and they laughed and chatted as the examination of prospective jurors went on.

WILSON IS GRATEFUL TO PEOPLE OF WEST

VISIT FROM PRESIDENT BEFORE CONGRESS OPENS URGED

Washington, D. C., Nov. 15.—President Wilson expressed his gratitude to the people of the west for their support in the election in messages sent tonight in reply to requests that he visit that section before congress opens. He said he would be unable to make the trip at present because of critical duties, but promised to go west later if possible.

The President sent the following telegram to William H. King, successful candidate for the United States senate from Utah:

"The invitation to visit the west tugs hard at my heart, because I feel deeply grateful to all the west for the splendid and generous support you have given me; but I would not be worthy of their generous confidence if I were to leave my desk at a time when duties of the most critical and pressing sort crowd upon me. I am promising myself the pleasure of such a trip if ever I can get free from the coils of exacting duty, and in the meantime wish to express my deep gratitude, appreciation and regret."

He also sent a message to F. C. Bonilla and H. H. Tamm, members of the Denver Post, thanking the people of Colorado and his written letters to Gavin McNabb, Democratic national committeeman of California, and several other Democratic leaders in that state expressing his appreciation of California's support.

Limit Sugar Allowance.

Petrograd, Russia, Nov. 15.—The prohibition of Petrograd will henceforth obtain sugar by card or ticket. The allowance per person is fixed at three pounds a month. Sugar has been very scarce for nearly a year past owing to dislocation of industrial activity and the vast quantities issued to the army. The newspapers assert that much of the difficulty has been due to profiteering maneuvers by speculators, but this allegation is discounted somewhat by the fact that the price of sugar has not risen much.

Form Speedway Association.

Chicago, Ill., Nov. 15.—Managers of practically every important automobile speedway in the country met in Chicago today and organized the American Speedway association. The plan is to have automobile racing teams campaign on the circuit each season and to promote public interest in automobile racing throughout the country. Harry S. Harkness of New York was elected president.

FEMALE LABOR IN DEMAND

German Situation Also Spurs Women to Demand Higher Wage Scales.

Berlin, Germany, Nov. 15.—The demand for female labor is constantly on the increase, according to reports from agencies that supply help. This increased demand is accompanied by increased demands for pay on the part of the women, so that many of them now insist on at least 50 pfennigs an hour (something under ten cents, according to present rates of exchange).

The greatest demand for unskilled female labor has come from the leather and metal trades that already employ thousands if not hundreds of thousands of men whose presence in the army is more and more desired.

Corresponding to the increased demand for women in the trades, there has been a falling off of the demand for domestic servants, indicating an increasing simplicity in living standards.

OLD KASSAN IS SAVED AS RELIC FOR PUBLIC

PRESIDENTIAL DECREE WILL PRESERVE OLD INDIAN SITE

Washington, D. C., Nov. 15.—The "Old Kassan National Monument," consisting of 38 acres within the Tongass national forest, Alaska, has just been created by presidential proclamation as a result of recommendations by the secretary of agriculture. The tract embraces the well-known abandoned Haida Indian village of Old Kassan, situated on Prince of Wales Island in Southeastern Alaska, about 36 miles west of Ketchikan.

The village was abandoned by the Indians about ten years ago. Among the relics which remain there are about 50 Indian totem poles, five or six of which are classed as exceedingly good specimens. In the deserted village there are also eight large square buildings, which were originally constructed according to the peculiar plan of the Haida Indians, and which, it is stated by those best qualified to know, represent the best specimens of Haida architecture that now exist. The largest of these buildings is approximately 40 by 60 feet in size and is made entirely of round and carved timbers. There also remain a number of Indian graves with the typical small grave houses erected by the Alaskan Indians.

Since the village was abandoned by the Indians the buildings have been rapidly falling into a state of dilapidation and decay, and a certain amount of vandalism by tourists and souvenir hunters renders some form of protection essential. An examination of the area was made jointly by representatives of the forest service and of the Interior department, and reports strongly urging the establishment of a national monument were approved by the secretaries of both departments. The Smithsonian Institution strongly endorsed the proposition for the establishment of a national monument will be protected and administered by the forest service, as is the case with all monuments located within the national forests.

WILSON LEAD GROWS AS RECOUNT GOES ON

DEMOCRATS CLAIM CALIFORNIA RETURNS FAVOR PARTY

San Francisco, Cal., Nov. 15.—Prediction that the lowest Democratic electoral in California will run ahead of the highest Republican electoral was made tonight by Democratic leaders after watching the slowly unrolled returns from county clerks.

"The difference will be about 600 in favor of the Democrats," said Sidney M. Van Wyck Jr., chairman of the Democratic campaign committee.

Hughes Plurality Is Cut.

St. Paul, Minn., Nov. 15.—With 46 of the 85 counties in Minnesota having turned in their tabulation sheets to the secretary of state and with unofficial returns from the remainder, including Hennepin and Ramsey counties, Mr. Hughes' plurality was cut down to 385. The total vote was: Wilson, 177,798; Hughes, 178,182.

The sheet from Hennepin county made the big difference over last night's lead of more than a thousand credited to the Republican candidate. The official vote, crept over at the capital today, gave Wilson 69,598 and Hughes 50,975, indicating a big lead for the Republican candidate outside the twin cities of St. Paul and Minneapolis. Notwithstanding the plurality of 1,222 Duluth and St. Louis counties gave the President.

Mexican Board Near Agreement.

Atlantic City, N. J., Nov. 15.—Unless new and unexpected opposition develops, members of the Mexican-American joint commission believed today an agreement covering the withdrawal of the American punitive expedition and a method of border control will be ready by the end of the week for submission to the two governments. Announcement that an agreement was in sight was made by Ignacio Bonillas, one of the Mexican representatives, at the close of a session that had lasted until night.

STATUS OF HOUSE IS YET IN DOUBT

Recount of Vote in Close Districts Without Incident

SEES REPUBLICAN GAIN

Thirty-Second Pennsylvania Now Leans Toward Barchfeld, Republican

Washington, D. C., Nov. 15.—Incomplete canvasses of the vote in several close congressional districts today brought no changes in the unofficial election results which indicate that 217 Republican, 212 Democrats and six of other parties have been elected to the sixty-ninth congress. Representative Doremus, chairman of the Democratic congressional committee, still claimed, however, that Democrats will make gains on the final returns in six or seven of the close districts, which apparently elected Republicans by small majorities. Speaker Clark and other Democratic leaders also confidently expect to cut down the Republican's plurality.

Representative Woods, chairman of the Republican committee, insisted tonight that the Republicans undoubtedly would control the organization of the house. A speaker to be elected must receive a majority of the house or 218 votes. Although the unofficial returns show the Republicans to be one short of a majority, they are counting on the Progressive elected in Minnesota, the Progressive-Republican in Louisiana and the Independent in Massachusetts to vote with them for James R. Mann for speaker.

Prospects of a Republican gain were apparent in the thirty-second Pennsylvania district, where the canvass of all Pittsburgh precincts today showed Representative Barchfeld leading Guy Campbell, his Democratic opponent by 13 votes. On the unofficial returns, Campbell led Barchfeld by 19 votes. County precincts still are to be canvassed.

Chairman Fitzgerald of the house appropriation committee, after discussing with administration leaders today plans for the program of the winter session, said efforts would be made to do away with the usual Christmas recess so that more business could be transacted.

ROWELL FIXES BLAME FOR HUGHES' DEFEAT

SAYS INSTRUCTIONS WERE SUPPRESSED AND DISOBEYED

San Francisco, Cal., Nov. 15.—Chester H. Rowell, chairman of the Republican state central committee, issued a statement today charging that the Republicans who undertook to look after Charles E. Hughes during his trip through California not only made a bad job of it, but suppressed and disobeyed instructions from the east. "If the advice and particularly the demands of the national managers of Mr. Hughes' campaign had not been defied and suppressed by those temporarily in charge of it in California," the statement said, "Mr. Hughes would now be beyond question president-elect of the United States."

Hughes Plans Extended Vacation.

New York, Nov. 15.—Charles E. Hughes, Republican candidate for the presidency, will leave here Saturday with his family for Lakewood, N. J., where he will rest several weeks, it was announced tonight. William R. Willcox, chairman of the Republican national committee, will accompany Mr. Hughes to Lakewood. Mr. Willcox, however, said he would "keep in touch" with Republican headquarters here by visiting the city several days a week.

WHY BUY IN ONEONTA?

Reason No. 11.
By Mr. Irving H. Rowe.

because Your Money Is Made in Oneonta and You Should Spend Your Money in Oneonta

A man in a desert could make no money. He might live, but it would be no object to him to "get ahead in the world." Robinson Crusoe, on his desert island, spurned the gold he found in the wreck. It would have been foolish for him to grow more corn than he could use. He had no incentive to do more than provide for himself and his bodily wants. In the world today, however, we have every incentive to make money. It means more food, a better home, books, pleasure, clothes, travel. It means, we will be respected and looked up to. It brings all those things in Oneonta and you should spend it in Oneonta. From the purely selfish reason of self interest, your money spent in this City will mean more general prosperity in this City, and we, all of us, share in the prosperity of our home community. Buy in Oneonta with the money you make in Oneonta.

EARLY SHOP CLOSING HARD BLOW

What Constitutes a Meal Results Into a Popular Public Question.

London, England, Nov. 15.—The new early shop-closing regulation has dealt many people a decided shock. The smoker who finds himself unexpectedly without cigars, the candy eater overtaken with a late craving for something sweet, and the workman who wants to send out for a sandwich, is surprised and angry when he discovers that such indulgences are barred.

After 8 o'clock on all nights except Saturdays it is impossible to buy anything, except meals and drink. The cigar stores and the candy shops must close, but restaurants may remain open, and in London people may crowd up to the bars and buy drinks until half-past nine. But the public houses cannot sell tobacco after eight. Nor can restaurants purvey confectionery or cigars to any but those consuming meals on the premises. Discussions over what constitutes a meal are waged in the newspapers. Is a sandwich a meal? And if one sandwich is not a meal how many would constitute a meal? One cigar may be bought with a meal and lighted on the premises, and therefore smokers may sometimes be driven to buy a meal for the sake of a cigar. Hence the importance of this point.

BANKER'S TRAIL ENDS ON BRINK OF STREAM

MURDER IS THE ONE EXPLANATION OF WOODSMEN AND GUIDES

Gloversville, Nov. 15.—After five days futile search for Carlton Banker, railroad division superintendent, who disappeared while hunting near Piseco, Hamilton county, last Friday, guides and woodsmen in the northern country are of one opinion—that Banker was murdered—shot within a few hours after he was left by his companions on a runaway while they circled a mountain.

Tracks supposed to be Banker's were followed for a short distance along the fall stream which empties into Piseco lake, and there all traces were lost. Bloodhounds were given the scent today and they followed what guides and hunters believed to be traces of Banker until the spot was reached on the fall stream, where it was evident he had spent some time, but there the dogs, like the other searchers, gave up the search, there being nothing to guide them further. Stories are coming down from the lake Piseco country tonight that possibly a liberal reward will result in the finding of the railroad man's body, but the general impression there is that it has been placed where it will not be found until the snow disappears late in the spring.

Practically all the searching parties have returned to Gloversville, hope of finding Banker alive having been abandoned after Tuesday's combing of the forests and today all hopes of even finding the man's body were given up.

FLAGLER'S WIDOW MARRIES

Judge Robert Worth Bingham, the Bridegroom, a Long Time Friend.

New York, Nov. 15.—Mrs. Mary Lily Flagler, widow of Henry M. Flagler, one of the organizers of the Standard Oil company, was married here today to former Judge Robert Worth Bingham of Louisville, Ky. The wedding took place at the home of Mr. and Mrs. Pembroke Jones, the Rev. Dr. George Morgan Ward, rector of the Flagler chapel at Palm Beach, officiating. Only members of the immediate family attended. The engagement of the couple was announced here November 5, and was the result of a friendship of more than 20 years renewed at a house party last year. They first met at commencement exercises at the University of Virginia 23 years ago. Mrs. Flagler inherited in estate from her first husband estimated as high as \$70,000,000.

RAIL HEADS FACE FEDERAL BARRIER

Gregory Will Contest All Suits Based on Adamson Act

PLANS ARE FORMULATED

Railroads Hold Law Is Unconstitutional and Incapable of Enforcement

Washington, D. C., Nov. 15.—Suits by railroads attacking the constitutionality of the eight-hour railroad law were begun today in many parts of the country and the department of justice laid plans to defend them. The department is planning to contest each suit as it comes up for hearing.

Assistant Attorney General Underwood will have direct charge of the government's defense and Frank H. Bagerman of Kansas City, Mo., has been retained to assist him.

Attorney General Gregory and Solicitor General Davis have been in conference with Mr. Underwood frequently since the first suits were filed and the general lines of defense have been laid. Informers reaching the department shows that the railroads base their prayers for temporary restraining orders against the law becoming effective on the ground that it is unconstitutional and incapable of enforcement.

Prompt Decision Possible.

Prompt and final decision by the supreme court of constitutionality of the law is possible under federal court practice, it was stated today by lawyers familiar with federal procedure. Under accepted practice, it was explained, in case of the district courts where test suits are brought, the district judge might call in one or two district or circuit judges to sit with him in the case. If a decision by such a court, it was stated, as to the constitutionality of an act of congress is drawn in question, an appeal could be taken direct to the supreme court without delay for its consideration by a circuit court of appeals.

Should a test case or cases be appealed to the supreme court, it was believed here that, despite congestion of important cases on its docket, the court would advance the Adamson act proceedings for early hearing and decision. The statement of Samuel Gompers that the law would go into effect, "injunctions or no injunctions," and the statement of W. S. Carter, head of the Locomotive Firemen and Engine-men, denying that a strike had been threatened, have attracted attention among federal officials.

Central Files Its Suit.

New York, Nov. 15.—The New York Central railroad today filed suit in the federal district court to test the constitutionality of the Adamson eight-hour law. The suit is directed against the three federal district attorneys of New York state and the chairman of each of the four brotherhoods in the state.

The road's principal contention is, according to Albert H. Harris, general counsel, that the Adamson law "is in no sense a regulation of commerce, but a temporary and arbitrary increase in wages for the brotherhood men." He said as soon as an answer to the suit was filed an injunction against the operation of the law would be asked.

Announcement that the New York, New Haven and Hartford railroad would also file suits to test the constitutionality of the Adamson law was made here today by Howard Elliott, the road's president.

Pennsy Seeks an Injunction.

Philadelphia, Pa., Nov. 15.—The Pennsylvania Railroad company today filed in federal district court a bill in equity asking for an injunction against the three United States district attorneys in Pennsylvania forbidding them from bringing prosecutions against the railroad company under the Adamson eight-hour law. The court is asked to declare that the eight-hour law is unconstitutional and void.

TWO QUESTIONS INVOLVED

Constitutionality of Law and Its Meaning Are Points At Issue.

New York, Nov. 15.—Suits filed by railroads against the Federal government to test the constitutionality of the Adamson eight-hour law also are expected to result in the interpretation of the statute if it is upheld, the railroad managers comprising the National Conference committee of Railways announced in a statement here tonight.

Suits designed to test the validity of the law and to restrain the government from putting it into effect, were filed in this city today by the New York Central and Erie railroads.

Explains Railroad's Program.

Similar suits are to be brought within the next few days by each railroad in the country in each of the federal districts it traverses, according to Elsie Lee, chairman of the conference committee. Mr. Lee issued a statement at the end of the committee's three-day secret session explaining the railroad's program in their fight against the law. The statement follows: "Two questions are involved in the

ANOTHER BIG GOLD SHIPMENT

Exportations to South America This Year Approximate \$20,000,000.

New York, Nov. 15.—The withdrawal from the sub-treasury of \$650,000 in gold for shipment to Buenos Aires, making about \$5,000,000 exported to South America in the last three weeks, directed the attention of the financial community today to the broadening of this movement. About \$20,000,000 in gold has gone to the southern continent from the United States this year.

The movement is made possible, bankers say, by trade conditions as a result of which South American countries, particularly Argentina, have a balance against this country. This is seen in the rate of exchange and results from our heavy purchase of raw materials, including hides.

Prior to the war most shipments of gold from the United States to points south of the isthmus were for British accounts, London drawing on New York balances.

BREHAN IS RELEASED FROM JAUZEZ PRISON

AMERICAN HELD AS VILLA SPY WAS SCOUT FOR PERSHING

El Paso, Texas, Nov. 15.—General Francisco Gonzalez, commanding at Juarez, Mexico, this afternoon, issued an order for the release of Benjamin Brehan and Joseph Williams, both Americans, who had been held under charges in the Juarez jail and in behalf of whom representations had been made by state department agents.

El Paso, Texas, Nov. 15.—After being in the Juarez jail since November 7, during which time he expected to be shot as a Villa spy, Benjamin Brehan was released at military headquarters in Juarez late today and came to the American side of the river.

Brehan said he knew of no reason why he was arrested, other than the fact that he was a scout for General Pershing in Mexico.

"I went to Juarez to see a friend before returning to join the punitive expedition," Brehan said tonight. "I saw a Carranza commander on the street in Juarez whom I had known at Casas Grandes, when I was with Pershing."

"There is an American scout," he said to another officer when he saw me. I was immediately placed under arrest, taken to the jail and locked in the 'incommunicado' cell. I was not told officially that I was to be shot, but I was given to understand that I would be executed. After Andres Garcia took an interest in my case, I was treated much better."

Joseph Williams, the Mormon, will be released as soon as he is able to furnish a bond of 1,000 pesos, it was announced.

SWITCHMEN COMPLAIN OF EXCESSIVE HOURS

OVERTIME NECESSARY TO GET LIVING WAGE THEY CONTEND

New York, Nov. 15.—Instances where railroad switchmen worked 14 and 15 hours a day and fell asleep after eating lunch, causing them to lose their jobs when they failed to return on time, were cited today by F. L. Eggleston, a switchman in the New York Central yards at Buffalo before the board of arbitration in the controversy between the Switchmen's union and 13 railroads over demands of the men for an eight-hour day and higher pay.

Eggleston testified he averages 12 hours a day and that he does not see his little son awake for weeks at times. Some jobs in the Buffalo yard, he asserted, average 14 and 15 hours.

L. E. Duschane, a foreman employed in Detroit by the Michigan Central, testified that by working three hours a day overtime he is able to bring his earnings to a basis where he can support his family. He calculated that if he worked 10 hours a day for 365 days a year he would receive as foreman \$1,357 for the year. A helper, he said, would earn \$1,247.

Duschane asserted that some of the crews in the yards worked 16 hours a day, ten hours clapping sometimes between lunch and the evening meal.

appeal by the railroads to the court for light on the Adamson law:

"First, is the law constitutional?"

"If it is constitutional, what does it mean?"

"Opinion has been expressed by eminent authorities that the law is unconstitutional and there are conflicting opinions as to how the law, if constitutional, should be applied."

Will Follow Courts' Dictates.

"Therefore the railroads must, as a matter of duty, ask the court if the law is within the power of congress. It is a duty they owe, not alone to the owners of the properties, but also the public that provides the revenues for the payment of wages."

"If the law is declared constitutional, it is expected that the courts will make clear its meaning and the railroads, it is unnecessary to say, will faithfully follow the instructions of

VIOLENT COMBAT IN SOMME FIELD

Germans Pay Dearly For Slight Advantage Over French

ITALIANS ARE ROUTED

Austrians By Heavy Bombardments Force Italians to Quit Their Trenches

Paris, France, Nov. 15.—Strong German forces attacked the French today north and south of the Somme river, but, according to the bulletin issued by the war office tonight, were able to gain only limited advantages at the cost of heavy losses. The Germans gained a footing in the French advanced positions in the northern corner and western outskirts of the St. Pierre Vaast wood. They also made some progress in the eastern part of the village of Pressoir.

Italians Quit Exposed Trenches.

Rome, Italy, Nov. 15, via London, England.—Italian troops were compelled to evacuate some of their more exposed trenches on the San Mario east of Gorizia yesterday, after repulsing five Austro-Hungarian attacks on an Italian salient at Two Pines house, says today's war office announcement.

Violent Fighting Near Somme.

While the British were further advancing their front north of the Ancre river or consolidating their new won positions, the French and Germans have been engaged in violent combat both north and south of the Somme. In both regions the Germans made gains—in the northern corner and western outskirts of the St. Pierre Vaast woods, north of the river and in the eastern part of the village of Pressoir, south of the stream.

The French official communication in admitting the loss of this ground says the Germans obtained only limited advantages at the price of very heavy losses. In the north the German attack extended from Les Bouffes to the south of Bouchavesnes, a front of five miles, and south of the Somme from Ablaincourt to the Chaulnes-woods, about three miles. The attacks were launched after violent artillery preparations.

Say British Attacks Failed.

Berlin, in reverting to the British attack which gave them the town of Beaucourt, says that except at Beaucourt all the British attacks broke down with heavy casualties. On the southern bank of the Ancre the attack has already been shattered, says Berlin, which adds that fighting is proceeding near Salty-Sallisel and Pressoir. According to London 5,678 Germans have been made prisoners on the Ancre front since Monday. The British losses, considering the extent of the gains are declared not to have been high.

The Transylvania front, aside from the line in France, is furnishing the most sanguinary engagement. Here almost everywhere the Austro-Germans are gaining ground against the Rumanians and Russians. In the Turgujaly, Alt and Jini valleys, the Teutonic allies have forced their antagonists still further back. In the Dobrudja region Bucharest reports the occupation by the Rumanians of the town of Boasie, on the Danube.

Royal Palace Is Bombed.

The royal palace in Bucharest has been bombed by Teutonic allied aircraft. The queen and the royal princess were not in the building at the time. Berlin admits that on the Cerna river bend in Serbia, the entente allies have captured some heights, and that in the valley the allied Teutonic line has been drawn back in order to prevent pressure on its flank.

In Galicia, according to the Petrograd war office-Germans from former driven Austro-Germans from former Russian trenches in the Narayuvka river region. Berlin asserts, however, that attacks by the Russians in this vicinity were repulsed.

East of Gorizia the Austrians by a heavy bombardment have compelled the Italians to give up some of their trenches. On the Corno front, the Italians have advanced at several points.

the courts.

"In the bringing of suit throughout the country, the railroads have no desire to delay action or to resort to technicalities. The railroads are anxious to have a speedy decision on the point at issue. The separate suits are necessary to protect the individual roads. A single suit would protect the individual road only in the particular jurisdiction within which the test case was brought and would leave all the roads subject to prosecution in other jurisdictions."

"The railroads have chosen what seems to be the shortest and most practical method of reaching an early decision, and, in the meantime, avoiding a multiplicity of prosecution and suit."

"The railroads earnestly desire to take the right road and it is for this reason that they have asked the court for light to show them the road."

FINANCIAL AND COMMERCIAL

The New York Markets.

New York, Nov. 15.—There were no material changes in today's broad and active market. Ralls were again under depression in consequence of the wide spread movement of transportation companies to test the legality of the eight hour law, while issues of most other descriptions were mainly higher. Dealings during the forenoon were attended by alternate advances and declines. Some stocks were strong from the outset, notably independent steel issues, which derived much of their support from the advance in the price of steel rails, a step inaugurated by the United States Steel corporation. Coppers and allied metals responded to the unprecedented conditions in that industry, ascending to highest quotations in the afternoon on reports that contracts at 33 cents per pound had been closed for 1917 delivery. Other new maximums including Gulf State Steel, common, at an advance of 18 points, with 17 for the second preferred. Schloss Sheffield rose to \$9.11, and Republic iron to \$5.14. To these records were added Atlantic, Gulf and West Indies, American Writing Paper preferred and Union Bag and Paper.

U. S. bonds were unchanged on call.

DESTROYED FRENCH TOWNS

Paris Has Exposition on Replanning of Devastated Regions.

In ancient times when a city was swept by fire and sword and nothing remained but razed walls and blackened ruins the fleeing inhabitants seldom returned, but took up abode in other parts of the country, says Charles J. Storey in the American City. Today in France the spirit of re-

PORTABLE POSTOFFICE.

habilitation is already abroad, and as a concrete expression of the voluminous discussion on the reconstruction and the reorganization of the invaded cities and departments after the war a monster exhibition, La Cite Reconstituee, has been opened in Paris. Here are shown the aids which France will call forth to help build the cities and villages blasted by fire and explosive shell. No city planning show was ever so pathetic, none ever so inspiring. It is pathetic because it stands for the almost impossible task of replacing marvelous ancient beauty. It is inspiring for the work it represents of reorganizing the municipal life in territory of which a good part is even today in the hands of the enemy.

As the nature of the exhibition indicates, the idea is not only an exhibit of city planning, but of reorganization. Roughly, there are three divisions: city planning, the reconstruction of cities and villages and the reorganization of their commercial activities.

There is, in addition to the question of replanning and reconstructing cities and villages in France, also that of immediate provision for those who have had their homes razed by the tide of battle. The exposition includes a village of forty or fifty full size houses, a postoffice, a church and a school. They are all portable and range from an "abri" for two persons to communal dwellings large enough for several families. Some are two stories, and all can be erected in a short space of time—from four hours to as many days if necessary. They are mostly built of wood, some ingeniously constructed of interchangeable panels bolted together.

CENTRAL POWERS MAKE
POLAND A KINGDOM

Will Be Established Out of Territory Conquered From Russia, Says Proclamation.

"Polish provinces occupied by troops of the central powers," says a dispatch from Berlin, "were the scene of a great and momentous historic event. When Germany and Austria-Hungary by joint action proclaimed Warsaw and Lublin the kingdom of Poland and re-established the right of the Polish nation to control its own destinies, to live an independent national life and to govern itself by chosen representatives of the nation."

"A few days ago a Polish delegation had called upon the imperial chancellor, Dr. von Bethmann-Hollweg. Its members were representative Poles of all classes, all parties, all ranks of society and all creeds. They transmitted to the German government the wishes of the Polish nation, which now have been granted to them."

"Thus the ancient kingdom of Poland, from which in the past came famous rulers like the Jagellones (a dynasty founded by Jagello which reigned in Poland from 1386 to 1572), and glorious soldiers like the great Sobieski (John III., king of Poland, in 1674-1696), is now resurrected to new life."

"The Poles are free from Russian oppression, no more to be trodden under the heels of the Cossack. The liberty that had been destroyed a century ago on Russian instigation now is restored. The rule of the knout has been abolished. Poland has been given back to western civilization."

The Gleaners.
Gleaning is wrongly believed to rest on a common law right in England, and a local obdurate opinion exists that a man who enters a field for this purpose cannot be prosecuted for trespass. But a majority of judges in the old court of common pleas decided that to grant a general right to glean would be contrary to public policy, because "it would demoralize the poor" and "open a wide door to fraud." Yet a local custom of gleaning has been recognized repeatedly by acts of parliament, and in some places the "gleaning bell" still rings from the tower of the parish church twice a day during harvest to let the villagers know when they may begin to glean and when they must stop. Ruth's romantic industry seems unknown in Ireland and has never existed in Scotland.—London Chronicle

WOMEN AS LETTER WRITERS.

They Are Better Than Men Because They Like to Gossip.

The art of letter writing is considered by the French an essentially feminine gift, probably because for years it was the only means of literary expression open to women. But the real secret of women's ability to write good letters is that they are not ashamed to record trifles.

Men feel after they have described the weather and the state of their affections that they have done their duty. A woman will tell what another woman wore, what her best friend said, who is rumored engaged to whom, what two best enemies are not speaking and add, maybe, the breakfast menu. In letters women give a little of real life, and their correspondence is really written conversation.

Letter writing is a delicate and difficult art, for, aside from its charming features, more harm has been done by the written word than by all the foolish converse in the world. Unkind remarks written are hard to erase from the heart. A foolish protestation of affection is a shame and grief forever to the writer. Every indiscreet written confidence is a curse that will come home to roost with the inevitability of the barnyard fowl.

Letter writing should be an art; the art of trifles. It should be the art of being interesting, but not compromising.—Spokane Spokesman-Review.

"CAN'T CUT OFF MY LEG,"
SAYS RAILROAD ENGINEER

"I am a railroad engineer; about 20 years ago my leg was seriously injured in an accident out west. Upon my refusing to allow the doctor to amputate it I was told it would be impossible to heal the wound. I have tried all kinds of cures and had many doctors in the last 20 years, but to no avail. Finally I resolved to use Peterson's Ointment on my leg. You cannot imagine my astonishment when I found it was doing what over 100 things had failed to do. My leg is now completely cured.—One Baile, 450 Myrtle avenue, Brooklyn N. Y."

It makes me feel proud to produce an ointment like this, says Peterson. "Not only do I guarantee Peterson's Ointment for old sores and wounds, but for Eczema, Salt Rheum, Burns, Itching Skin and Blind, bleeding or itching piles, and I put up a big box for 25 cents, a price all can afford to pay and money back from your druggist if not satisfied."

Again for \$1—While They Last

This \$2.50 Aluminum Cooker

The cost of Aluminum has doubled since we ordered these lifetime Cookers. At present prices, this offer would be impossible. So, in all probability, after our supply is exhausted, it cannot be made again.

Next week the grocers of this city will once more feature this Mother's Oats Cooker offer. And for the last time, we believe.

We have supplied Cookers now to over 1,000,000 homes. We have supplied \$2.50 Aluminum Cookers for \$1 to Mother's Oats users. But this offer ends with our present supply, and probably forever. Unless Aluminum drops 50 per cent, we cannot again offer a Cooker like this for \$1.

But next week only we make the offer below. You can get this Cooker for \$1, by buying two of our cereals which should be cooked in it.

This offer is made to induce better cooking. To bring you Mother's Oats and Pettijohn's cooked in perfect form, with the flavor kept intact. Our reward will come in your doubled delight in these foods.

We ask the pictures just to show that you use our cereals. Unless you have the right flakes, right cooking does not help much. But, if you use Mother's Oats and Pettijohn's, this cooker is yours for \$1. This is for one week only. Get the packages from any grocer named below.

One Week Only—Your Last Chance

Our Offer is This: Send us check or money order for \$1 and two pictures of the Cooker cut from Mother's Oats packages and one picture of the Bear from the front of the Pettijohn's package— or, if you prefer, you may send us five pictures of the Cooker from Mother's Oats packages alone. These pictures must be mailed next week. We will mail the Cooker by parcel post prepaid.

Address, Mother's Oats, 1708 Railway Exchange, Chicago

Mother's Oats

The Extra-Delicious Vim-Food
Flaked from Queen Oats Only

Mother's Oats is made from queen grains only—just the big, plump, luscious oats.

No puny, starved grains are included. A bushel of the choicest oats yields only ten pounds of Mother's.

The result is a flavor that has won the world—a flavor which is matchless. Yet these large and luscious flakes cost you no extra price.

Nature stores in oats a wealth of vitality, which everybody needs. We want you to know this fascinating vim-food, made as we make it and cooked in our way.

Pettijohn's

Rolled Wheat with 25% Bran Flakes
A Modern Bran Dainty

Every doctor advises bran, as essential to right living. It is Nature's laxative. Everybody every day should eat it. It means better health, better spirits, sunnier days. Without it, our diet of fine food forces folks to drugs.

Pettijohn's is made to meet doctors' requirements. The bran is hidden in flaky flakes of wheat. The food is a morning dainty which everybody likes. Yet it contains 25 per cent tender bran.

The bran is in flake form, which makes it doubly efficient. Ground bran will not do.

Try Pettijohn's one week. Note its delightful effects. Never again will you go back to a branless diet.

Then try Pettijohn's Flour. It is 75 per cent fine patent flour mixed with 25 per cent bran flakes. Use it like Graham flour in any recipe.

Patrol Exercises at High School Tuesday Morning.

Games were held in the High school building last Tuesday morning. The following program: Song, "White and Blue," by the school; recitation, "Americanism," by Clifford Brown; song, "Our Flag," by the school; recitation, "My Dad," by Lucille Houck; song, "America," by the school.

\$10,000 for Improvements.

At a recent meeting of the Cooperstown Board of Trade, William T. Hyde of this place agreed to give \$10,000 toward the improvement of Main street, provided the work is done within one year, all wages to be paid by the town. A boulevard system of lighting installed and trees planted on both sides of the street. Mr. Hyde's generous offer was greeted with hearty cheers. It is probable that a special election will be called and the proposition submitted to the taxpayers of the village. It should be carried. The meeting was well attended and was one of the most enthusiastic kind.

Minor Mention.

The ladies of the Methodist church will serve a 25 cent supper on Tuesday and Wednesday evenings of next week at the Village hall. Mr. and Mrs. J. Andrew Gilchrist were in Rome Saturday, where they witnessed the Cornell-Michigan football game and attended a reception of the Kappa Delta Itho fraternity, of which Mr. Gilchrist is a member.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify your hair! Make it soft, fluffy and luxuriant.

Try as you will, after an application of Danderrine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderrine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderrine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair.

Get a 25 cent bottle of Knowlton's Danderrine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

THE AUTO AND THE CIRCUS.

Men do not need to have much passed the middle period of life to recall the day when all circuses in the country, and among them were the Barnum, the Van Amburg, the Cole, the Forepaugh, the Great London, the Dan Rice and others, made their trips about the country entirely in vans drawn by horses. The whole paraphernalia of the big show was in those days loaded upon wagons requiring from six to ten horses to draw and carted up and down the valleys and over the hill roads of the country. Naturally the stops were frequent, and a show which made an average of thirty miles a day was doing very well indeed in the matter of distances.

Later the first venturesome showman who loaded his vans and his horses upon flat cars and kept to the lines of the railroads, loomed a veritable Columbus of the ring above the horizon, and in a few years there were practically no road shows left—in the sense of horse drawn and highway transported. Instead all took to the rails, and where stops had been at no great distances apart, they were lengthened so that the shows only touched the high spots, making from sixty to a hundred or more miles each night after the show was over. To go to the station and see the trains come in is of course a delight nowadays of the city boy; but perhaps that was greater of the country youth who in the dusk of morning leaning over the pasture bars on his way for or driving home the cows, watched the horse-drawn vans go by, their splendor hinted at beneath the canvas covering, and if he waited long enough, perhaps saw the led creatures—the elephants, camels, sacred cow and the like—on their way to the next town.

All which is perhaps a long way off from the title, which is suggested by the fact that, just as the circus left the highways and took to the rails, so there is now to be a reversion of type, and the big shows are, perhaps all of them presently and certainly one next year, to take to the roads again. Only this time the horse will not be utilized as motor power; it will be the motor truck instead. The one show which will go out in the spring will, it is said, have 150 powerful motor trucks, besides a profusion of pleasure cars, the whole being equivalent to a regulation 100-car show. It is of course an experiment new; but if it works, one may look to see all the circuses and menageries of the world en tour upon motor trucks.

After all, the proposed auto circus follows merely the course of man himself in the way of transportation. First it was the dirt road on which by stage or his own vehicle he traveled. Then it was the railway which threw the stage coach into the discard; and later the automobile came in to run a serious race of rivalry with the steam and trolley cars. And now that men are beginning to fly instead of sailing the waters or travelling upon land, is it too far a cry to picture the circus of a distant future dropping down from the central blue upon the field of sawdust ring? Only in that event, what would become of the parade, which since shows were has been the delight of the youth of the world?

COMMENTS OF THE PRESS

Making American Citizens.

The opening of 37 schoolhouses in Chicago as community centers for the winter is much more significant than the kindly philanthropic thing it seems. It will accomplish more than the entertainment of some thousands who suffer herefrom in study apartments.

In any city with a population so various as Chicago's where we have the material for whole Swedish cities, whole Polish cities and whole Italian cities, citizenship has to be bred. The alien is only technically a citizen when he takes out his naturalization papers. To become effectively a citizen he must be naturalized by understanding the community in which he lives. It is this function which the community centers can be made to serve.

Opening the schools and other public buildings to the public at large is an aid in the making of American citizens.—Chicago Tribune.

The Drug Habit in the East.

The traffic in alcohol, opium and cocaine in India, Ceylon and China has more than a sentimental importance. The trade with India amounts to nearly one-third of the value of the United Kingdom, and the supremacy of the empire depends upon the preservation of that trade from the competition of other European nations. The traffic in narcotics and narcotics was sapping the efficiency of the nation, and government control cannot be kept over a nation that wishes to be drunk. The Indian government sacrificed a revenue of four million sterling when it put an end to the export of opium; and as it brings the traffic in alcohol under control, the consumption of opium and cocaine increases, while in China as the importation of opium is reduced, the sale of intoxicants increases.—The Times of London.

WANT PRIMARY LAW REPEALED

OTSEGO'S SUPERVISORS PASS RESOLUTION URGING ABOLISHMENT.

Sen. Law is Cumbersome, Expensive and Useless—Board Members Busy With Committee Work and Business Transacted Only of a Routine Nature.

Cooperstown, Nov. 15.—(Special).—Characterizing the present direct primary law in New York state as cumbersome, expensive and useless the Otsego county legislature here this morning passed a resolution urging the county's representatives to use their efforts toward the repeal of that law. The resolution, which was introduced by W. L. Smith, was passed unanimously without discussion. It reads as follows:

Whereas, the present primary law is cumbersome, expensive and useless, therefore be it

Resolved, That the board of supervisors of Otsego county request the member of assembly and state senator from this district to use their best efforts for the repeal of this law, and that the clerk of this board be instructed to transmit forthwith a copy of this resolution to the Hon. Allen J. Bloomfield and the Hon. Adian P. Brown.

The members of the board were busy in committee work all day and the business transacted was of a very routine nature.

Petitions for tax levies in several towns were offered at the morning session by their prospective town boards as follows:

Springfield—\$200 to pay deficiency in miscellaneous account.

Pittsford—\$250 to pay certificate of indebtedness.

Oneida—\$1,221.60 to pay town indebtedness.

New Lisbon—\$1,674.62 highway improvement; \$1,000 for legal services; \$603.34 certificate of indebtedness.

Milford—\$700 for temporary relief of the poor.

Middlefield—\$660 for town indebtedness; \$2,325 for highway indebtedness; \$500 for the relief of the poor.

Burlington—\$1,020.00 to pay town bond and interest; \$297.50 removal of snow.

Alfred J. Camp, town superintendent of Highways in Middlefield, submitted a list of owners of lands where brush and noxious weeds were removed and a petition that there be levied against them a tax in the amount opposite their names.

Dr. H. A. Ward, coroner, submitted a report to the effect that no moneys or other valuables had been removed from dead bodies since November 5, 1915, and that Dr. B. F. Bishop had served as coroner's physician in the case of Clarence Gorton.

Dr. Norman W. Getman submitted a detailed statement showing the number of cases attended, cause of death, date and place of each. There were 30 cases covered by the report, 13 of them being from the city of Oneonta. The committee on forms of assessment rolls submitted their regular report to the effect that the rolls seem to conform to the requirements of the law with the exception of a few minor errors and it was adopted. The committee consists of Messrs. Hakes, Beardsley and McFee.

At the afternoon session a large number of petitions from town boards to raise funds by tax for various purposes were read and referred to the committee on town expenses.

Exeter—\$310 to pay certificate of indebtedness for bridges.

Candlish—\$125 to pay for land purchased to widen approach to Sidney bridge; \$675.50 to pay highway bond; \$150 for poor fund; \$150.87 against Wells Bridge Fire district for hydrant rental and balance due on rent of hose house.

Mainfield—\$211.50 against the Candlish Forks lighting district to pay for lighting; \$36.15 against the Townsendsville fire district to pay for fire protection.

Butternuts—\$910.20 to pay certificate of indebtedness for snow fund expenses.

Hartwick—\$111.55 to pay certificate of indebtedness incurred for poor fund; \$500.22 for lighting expenses; \$625 to pay certificate of indebtedness for snow removal.

Maryland—\$270 for rights of way and observance of Memorial day; \$450.75 to pay certificate of indebtedness and interest thereon; \$100 for compensation of town superintendent of highways; \$50.00 to pay town bonds maturing and interest thereon.

SKUNK BISTS HUNTER.

Calder Shavin Now Wears a New Suit of Clothes.

One of the D. & H. callers named Shavin has developed no little ability as a skunk hunter and he has secured numerous good basts by standing up on his victim and breaking the animal's back with a sharp blow with a slip sided club. This method has worked well and Mr. Shavin has escaped any unpleasant experiences until the other night. On this occasion, while near the D. & H. station and at a late hour, he discovered one of the two-bearing animals about five paces from the station street. Being with him his favorite club, Shavin secured the first thing at hand, which was an iron rod and which was much heavier than he had thought. The basty was behind Mr. Shavin, the latter was near the doorway to the office of A. S. Leach, Warden. When the iron rod, but his weight was too much for Shavin to swing accurately and the blow failed to land on the skunk's back. The skunk's animal, finding himself not collected, proceeded to adopt his last resort and the clothes of Mr. Shavin were directly in the path of the club, which the result that they have been ruined for a time and Mr. Shavin walked home with his overcoat the chief article of wearing apparel in addition to his underclothes. Mr. Shavin declares that he has a terrible chill now and that the skunk's skin is to be his if it takes several weeks to locate the animal in the mountains. He has also written Mr. Shavin a bill.

ADVANCE IN FARM VALUES.

The advance in farm values has been almost beyond belief in recent years, says the Farm and Fireside. In 1900 the census found the average acre value for the country \$15.57. Ten years later it was \$32.40. In 1912 it was given as \$36.25. In 1913 as \$38.10, in 1914 as \$40.10, in 1915 as \$40.55 and in 1916 as \$45.55. It is explained that the unprecedented increase in the last year—almost \$5 an acre—has been caused in part by a reaction from the south, following a temporary depression at the beginning of the war, and in part by the stimulus given by war prices for the exportable surplus.

LOCAL MENTION.

The attention of the members of the Woman's club is called to the meeting this evening of the Home Economics department. Miss Florence H. Pross, county director, will speak on "Labor Saving in the Home."

The August division of the young ladies of the First Presbyterian church held a salad and cake sale yesterday at the store of A. R. Henneke on Main street. There was a liberal patronage and the young ladies realized about \$29 as the fruit of their enterprise.

The new advertisements in this issue are: M. Gurney & Sons, Inc., Happy Hour, Herrick's Clothes Shop, Oneonta Theatre, A. E. Nye, Franklin J. Ives, Hurd Boot Shop, Townsend's Hardware Co., Spencer's Busy Clothes Shop, The Sample Shoe Co., The Strand.

J. F. Thompson esq. has purchased of Arthur M. Dutt a new 1917 Chandler roadster which is the second Chandler motor car he has purchased. Mr. Dutt this season, earlier in the year he having bought a touring car. This certainly speaks well for the Chandler.

An Oratorical Silver Medal contest is to be held on Friday evening, November 24, in Municipal hall. The contesting young ladies are pupils of Miss Ruth Thomas and the selections are taken from Ralph Connor's Black Rock. The program in full will be printed in The Star next week.

The Wednesday Afternoon Social club had the first of its bi-weekly winter meetings at the home of Mrs. S. C. Hamilton, 7 Myrtle avenue, yesterday. Plans for future activities of the club were discussed and the session as a whole was full of interest and entertainment for those present.

Dr. Austin Griffin was yesterday afternoon removed to the Fox Memorial hospital, his son, Lamour Griffin, and his brother, John A. Griffin, of Schenectady, accompanying him. His second trip well and was cheerful and hopeful. It is expected that the operation will be performed at 10 o'clock this morning.

The One Cent sale at the Hutson drug store, the Rexall store, opens this morning and continues for three days. Those who were disappointed last year when the sale was over should recall that it continues only until Saturday and that the best bargains will be promptly secured by those who visit the store early in the sale. Hunt up the big advt. appearing in Tuesday's Star and note the prices quoted.

The generating machinery for the direct or power circuit of the Light and Power company gave out yesterday and while every effort was made to get the machinery repaired it was an impossibility for yesterday. The Colliers company generously granted the request of the local company for assistance and cut their wires into the line and customers are being served while the repairs are being made. This provision for power is appreciated by all users and especially by The Star as it will permit the big stereotyping press in the basement of this building to be run this morning and The Star to appear. The efforts of all concerned are to be commended.

The Next Fortnightly.

The next meeting of the Fortnightly club will be held on Tuesday evening, November 28, instead of on the 23rd, as was yesterday morning inadvertently stated. The meeting will be at the home of A. S. Morris, and the speaker will be J. F. Thompson esq., who will speak on "Commercialism."

Chicken Pie Supper.

The Ladies Aid society of the Oneonta Plains Methodist Episcopal church will serve a chicken pie supper at the home of Harry Shepard, Friday evening, November 17. All are invited to come and partake of the good things and spend a pleasant evening together. Supper from 5 until all are served. advt 11

MURLEY WILL SUSTAINED.

Appellate Division Unanimously Confirms Verdict of Trial Court.

Yesterday afternoon at Albany the appellate division of the supreme court unanimously confirmed the verdict given at the trial term of the supreme court sustaining the will of the late Julia Makley, late of this city, in which the estate after the death of George Makley, is devised to Mrs. May Price, the younger daughter of the deceased. The case has been contested in the courts for the past three years and in each instance the will has been sustained.

It will be recalled that when the will, which made Attorney Charles C. Plavsch and Mrs. May Price the executors, was offered for probate before the late Surrogate Baldwin it was contested, the daughter, Mrs. Charlotte Epps, alleging that the mother was suffering from insane delusions relative to the son-in-law, Orlo Epps, and that the will should be set aside. The case was fought out with many witnesses being sworn, with the result that the will was probated and its provisions sustained. The contestant was represented by J. Lee Tucker and George L. Dockes, and the executors by Judge N. P. Willis of Cooperstown.

The contestants then, by a provision of the law which has since been repealed, took the case into the supreme court on an action to set aside the will upon the same grounds, it virtually being an appeal to the trial term of the supreme court. The issue was tried again before a jury and the verdict was in favor of the will.

From this verdict rendered at Cooperstown an appeal was taken, which was argued some months ago with the result that the appellate court now, by a unanimous vote, confirms the action of Surrogate Baldwin and the verdict of the trial court. Attorneys Tucker and Dockes for the contestant and Judge Willis for the executors have appeared in all the proceedings.

SUSTAINED SLIGHT INJURIES.

M. G. Lowenstein Hit by Motor Car of D. L. Palmer of Portlandville.

Late yesterday afternoon while D. L. Palmer with his wife in the car with him was driving easterly along Main street near the foot of Elm street, he hit M. G. Lowenstein, the traveling oculist, who visits this city at intervals, and fell him to the pavement. He fortunately escaped with only slight bruises about the left side of the face and left shoulder. As onlookers viewed the accident, Mr. Lowenstein attempted to cross the street ahead of the car, while Mr. Palmer thought that his signal had been heeded and that the man would halt until he had passed. The former was hurrying to get upon the walk and when Mr. Palmer saw the man's intentions he attempted to stop the car and turned it upon the curb, but without avail. The pavement was slippery at the time from the snow that had been falling at intervals, and was not easy to stop or control the car. The best effort possible was made according to The Star's information, Mr. Lowenstein has not the best of eyes and the accident was perhaps the result of a combination of circumstances.

Dr. Mills, who was near the scene, gave Mr. Lowenstein an examination and found no bones were broken and Mr. Lowenstein continued on his way to the business section. Mr. Palmer reported the accident and the facts as they appeared to him at police headquarters and then continued on his way home.

Big Laughing Show Tonight.

Those that appreciate comedy, of the real side-splitting and hilarious order, should not overlook the play, "My Wife's Family," that is to be presented tonight at the Oneonta theatre by Billy Allen and his musical comedy company. Each night large audiences have attended the theatre and enjoyed the classic musical comedies at bargain prices. Tonight the funniest play of all is to be offered. There are more funny lines and humorous situations in this play than all other comedies ever written.

PRIZES FOR SCHOOL GARDENS.

Awards Made This Week and Prizes Distributed to Pupils.

For several years there have been prizes offered to the pupils of the River street school for the best flower and vegetable gardens entirely managed and cultivated by the pupils. The same offer was made this summer, and the Chestnut street school was also included. The general interest felt in the work was manifested by the fact that there were 91 gardens altogether and every one of them fine. In so large a list it was difficult to make a selection, but 17 were selected as surpassing the others, and then by a difficult process of elimination the best two were selected and the prizes awarded.

The prizes were given on Monday by the committee of the Woman's club, consisting of Mrs. Susan C. Hoye and Miss Marion Yager. There were no formal exercises, but the prizes were presented by Dr. Dunn for the club, and were as follows:

Vegetable Gardens—First, Morris and Hugh Barnes; second, James and Edward Berry; third, Emma Bradley; fourth, Eldon Willman.

Flower Gardens—First, Millicent Bock; second, Blanche Super; third, Jennie Myers; fourth, Laura Stalker. Flowers and Vegetables—First, Florence Bantick; second, Edna Tripp.

The prizes for the first two classes were divided, \$2 to first, \$1.50 to second, \$1 to third and 50 cents to fourth. For the flower and vegetable gardens, \$5 and \$2 were given. It had been hoped to have an exhibition of garden products, but on account of the outbreak of influenza it was given up.

The work was in every way so successful that, despite the labor involved, the gardens will be continued next season.

HUNTERS HOME WITH VENISON.

Three Parties Return from Adirondacks Bringing Deer with Them.

Miss Host Low of the Windsor hotel, B. E. Swart and Fred Peck of Portlandville returned late Tuesday night from a stay in the Adirondacks hunting deer and brought back with them two bucks, the successful hunters being Messrs. Swart and Peck. The men report an enjoyable outing with deer not over plentiful in the section which they visited.

Arthur Haverly, a well known D. & H. employee residing on Chestnut street, arrived home yesterday and brought with him from a hunting trip to the Adirondacks also a buck. This was seen at the Williams market during the day and attracted no little attention.

Samuel Dibble and Harry Curtis of the Oneonta Auto company, who with Roscoe Wheat of Franklin and Howard Bundy of Meridale had been hunting on the Raquette river about 45 miles east of Potsdam, arrived home Tuesday and brought with them one buck shot by Mr. Wheat.

The Association Contest.

The membership contest at the Oneonta Railroad and Local Y. M. C. A., which began so auspiciously on Tuesday, was continued with even more success yesterday. A meeting of the workers was held last evening at the association rooms, at which a fine supper was served by Mesdames Cyphers, Gregory and Elizard of the Hospitality committee of the Ladies' auxiliary, after which reports were handed in.

From these reports it appears that 17 new members were received on Tuesday and 19 on Wednesday—a total of 36 in two days. As the total number set as a mark for the association was 100, and there are eight of the ten days still to work, there is no doubt that the number will be more than reached. A meeting of the workers will be held each evening for the purpose of handing in reports.

"THE PRINCESS PAT" COMING.

Victor Herbert's Greatest Musical Success at Oneonta Theatre Nov. 22.

Manager Bradnor announces that John Cort's beautiful production of Victor Herbert's greatest musical success, "The Princess Pat," will appear at the Oneonta theatre for one night only Wednesday, Nov. 22. This is the largest and most expensive musical organization on tour at the present day. Manager Bradnor has assumed the guarantee and hopes the music lovers of Oneonta will rally to his support and greet this brilliant musical comedy with a full house next Wednesday evening.

The prices are unusually low, 50c, 75c and \$1.50 and most orders will be accepted now.

Reliable Furs

Seldom, if ever, have we shown such an extensive line of furs in separate pieces and matched sets, than we now offer. These furs will appeal to you from several points—comfort, style, durability.

Stylish—and cut in accordance with prevailing modes, but not so extreme as to confine their usefulness to one season of wear.

Comfortable—from their being shaped and fitted to set well over suit or coat.

Durable—When we speak of durability of wear, the entire construction of a fur piece is taken into consideration—not alone the lining and interlining, but the fur itself; where possible, skins are used in their entirety, special pains being taken to bring these skins, in fitting on their linings, so that where the edge of a collar or muff comes in contact with the neck or wrist, the most durable part of that fur be shaped to cover that particular point.

DEATHS

Bartley Dibble.
Bartley Dibble, a son of the late Simon Dibble of Meridale and a brother of Fred L. Dibble of this city, died on Friday last at his home in Bovina Center. His death followed an attack of appendicitis, for which just a week before he underwent an operation. He was 65 years of age and had spent most of his life in Meridale, with the exception of the past few years spent in Bovina.
Mr. Dibble was one of the best known and most respected men of his township. He is survived by his wife and an adopted daughter, three brothers and four sisters, the latter being: Rodrick Dibble of Bloomville, Fred L. Dibble of Oneonta, Charles E. Dibble of New York, Mrs. Byron Price of Bloomville, Mrs. Husted More and Mrs. John Gregory of Meridale and Mrs. Mary Smith of Lavenport.
The funeral was held Monday afternoon at the First Presbyterian church in Meridale. The services were conducted by Rev. Mr. Graham of Bovina and Rev. J. W. Dimp of Meridale. Interment was in Woodland cemetery. Among those present were Mr. and Mrs. Fred L. Dibble, Mrs. D. S. Dibble and son, Daniel, of Oneonta.

MARRIAGES

Houghton-Terpening.
Hanslar Houghton and Miss Delilah M. Terpening, both residents of this city, were united in marriage at the First Baptist parsonage last evening at 6:30 by Rev. E. J. Farley. They were accompanied by Mr. and Mrs. George Terpening, Mr. Terpening being a brother of the bride. The newly married couple left last evening on a wedding trip to Binghamton, Philadelphia and Camden, New Jersey. On their return they will reside temporarily at 16 Academy street. The young couple are estimable people and their many friends wish them a happy wedded life.

Gregory-Johnson.

Leon W. Gregory of Mount Vision and Mrs. Kittle M. Johnson of Garrettsville were united in marriage at the district parsonage on Church street yesterday afternoon by Rev. E. A. Martin, the district superintendent of the Methodist church. They were accompanied by Mr. and Mrs. Henry Shove. The many friends of the couple extend hearty congratulations.

Entertains Eastern Stars.

Mrs. W. Irving Bolton entertained the members of the Eastern Star and their families at the Bolton residence at 24 West street last evening and the event was well attended and very enjoyable. Both old time and new games were played and there was an abundance of music, including solos, duets and popular songs. The witch's den, with Mrs. W. L. Hendy in charge, was a novel creation, after the model of a gypsy's tent with furs, rattle snakes and Indian relics for decorations. Another pleasing feature was the cafeteria lunch, consisting of coffee, sandwiches, doughnuts and pumpkin pies and the Japanese table, where tea and waters were served.

Special Services in U. P. Church.

There was a large attendance at the "Roll Call" service in the United Presbyterian church sabbath morning. This service was intended to arouse enthusiasm, and enlist the energies of the congregation in an effort to have 200 present next sabbath at a Rally Day service in the Bible school. Special services each evening for two weeks will follow this, at which an inspiring song service will be conducted by Paul Jackson, a graduate of Union Musical conservatory, to be followed by an address by the pastor, Dr. W. E. Smiley. To these meetings the public is cordially invited. Keep in mind the dates, November 19 to December 2.

Death of Judson Tatbot.

Judson Tatbot of Lena, in the town of New Lisbon, died Monday of this week at the Fox Memorial hospital, of which he had been an inmate for about a week. His illness, which was of several months' duration, was of cancer of the kidneys. An operation was performed, but the disease had progressed so far that the progress of the disease could not be abated. He was 57 years of age and leaves ten children to mourn his death. His wife died about three years ago.

Rev. S. G. Bundy Married.

Rev. Smith G. Bundy of Otsego and Mrs. Mary E. Burger of Peoria, Ill., were married on Thursday, November 9, at the bride's home in the latter city. The ceremony was performed by the bride's pastor, Rev. R. Y. George of the First Presbyterian church of Peoria. Mr. and Mrs. Bundy arrived Sunday in Otsego, where they will be cordially welcomed by the many friends of the groom, and where they will reside at the Bundy homestead.

BIG FARMERS' MEETING.

Annual Session of Delaware County Farm Bureau Association Dec. 13.

Plans are being made to make the annual meeting of the Delaware County Farm Bureau association one of the largest agricultural meetings ever held in Delaware county. The date is Wednesday, December 15, and the place is in the court house at Delhi.

Speakers have not been definitely secured as yet, but one of them will be a representative of the New York department of foods and markets, probably Mr. Collingswood, editor of the "Rural New Yorker." Other speakers of national prominence in the work of farming will be present. Officers of the executive committee for another year will be elected and plans for the coming year discussed. A full program will be announced later.

Arrangements are being made to have the ladies attend and a part of the program will have to do with woman's work in the home. The bureau will furnish hot coffee with cream, and people are urged to bring a basket lunch.

The people of Delaware county are waking up to the fact that the Farm Bureau is doing great work and it is believed that hundreds of farmers and their families from all parts of the county will attend this meeting and help start the work of another year off in good shape.

Convention at Otego.

The annual convention of the Woman's Foreign Missionary society of the Oneonta district is to be held in the church at Otego tomorrow with sessions morning and afternoon. The morning session will be devoted largely to business, with a conference of children's workers conducted by Mrs. Scott Clark. At noon a luncheon is to be served by the Otego auxiliary. In the afternoon an interesting program of addresses and musical numbers has been arranged. Mrs. Charles R. Harp and Mrs. Georgia Weston of this city are among those to speak in the afternoon. Mrs. C. E. Huntington of Oneonta is president of the society.

Purchase New Cars.

"Among the recent purchasers of Overland and Willys-Knight cars of the Oneonta district is to be held in the church at Otego tomorrow with sessions morning and afternoon. The morning session will be devoted largely to business, with a conference of children's workers conducted by Mrs. Scott Clark. At noon a luncheon is to be served by the Otego auxiliary. In the afternoon an interesting program of addresses and musical numbers has been arranged. Mrs. Charles R. Harp and Mrs. Georgia Weston of this city are among those to speak in the afternoon. Mrs. C. E. Huntington of Oneonta is president of the society."

Whipple Surely Elected President.

Among presidential candidates, the one sure bet is for Roy W. Whipple, formerly of Oneonta, who on Tuesday was unanimously elected president of the Washington Automobile Dealers association at a meeting held Tuesday evening. About 30 members were present and voted to hold an auto show, probably in February next.

Held for Grand Jury.

Norwich, Nov. 15. — William Anderson, or Frank Anderson as some insist his name should be given, who was arrested in Oneonta on Tuesday charged with rape in second degree, the girl being Ethel Smith of Liberty, a girl of 16 years, pleaded not guilty to the charge today before Judge McIntire and was held for the grand jury.

Louis Dante at State Hospital.

Cashier Louis Dante of the East Worcester bank has been taken to the Washington State hospital for treatment. He has suffered a complete nervous breakdown and his condition is alarming. (Richmondville Phoenix.)

CASCARETS FOR COSTIVE BOWELS, HEADACHE, COLDS

To-night! Clean your bowels and stop headache, colds, sour stomach.

Get a 10-cent box now.

Turn the screws out—the headache, indigestion, the sour stomach and bad colds—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a long liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

TEMPERAMENT.

Just What It Is From the Cynical Man's Point of View.

In a woman temperament is the volume of irritability she is allowed to show; in a man it represents the proportion of the feminine in his construction.

Temperament is always feminine. When a married woman throws plates at her husband and tears up the carpet she has within her the makings of a great artist; all she needs is technique, a press agent and a divorce; hitherto her energies have been misdirected.

Temperament is the difference between character and genius—that is, it marks the point where character leaves off and genius begins. When there is enough temperament and it is properly directed, genius results; when not, you secure board at a lunatic asylum.

Tenperament is the nth power of selfishness, the supreme anarchist of the mind. When you begin to feel bombs going off inside of you and they are counting the dead and you see a kind faced posterity looming in the distance, then prepare for every emergency; send for an alienist and a reporter. For when the next bulletin is megaphoned you may be either a rumormonger or the father superior of a new cult—Life.

What Rimes With Babe?

A common English word for which there is only one rime is "babe," and it was Swinburne who used it with exquisite appropriateness in "A Rime."

Babe, if rime be none
For that sweet small word
Babe, the sweetest one
Ever heard.

Right it is and meet
Time should keep not true
Time with such a sweet
Thing as you.

Love alone, with yearning
Heard for a while
Takes the sun's height, burning
Over the babe.

"Silence" is another word beloved of poets that has no rime. Mrs. Browning went to the very limits of her passion for assonance when she rimed it with "islands."

What Advertising Does.

Advertising sells a certain thing to a certain person. And it does more. It makes a more or less permanent customer out of that person. It promises him that he can come round and get the same thing again. It gives that thing an added value in his eyes. It guarantees a degree of quality that he could not be sure of finding in some nameless brand. It spurs the man who makes the thing, and all the people who work for him, to do their level best to hold up or improve the standard. It dignifies. It educates whole communities and whole nations to new needs and new pleasures. It works in the large just as it works for the individual.

How to Be Rid of Disgusting Dandruff

The only way to be permanently rid of disgusting dandruff is to correct its cause. Shampooing merely cleanses the scalp for a few days, then the scales form again as thick as ever.

To destroy the dandruff germ and get rid of dandruff for good, part the hair and apply a little of the genuine Selsun Sage directly on the base scalp and rub it in with the finger tips for a few minutes until absorbed by the scalp. You will surely be amazed at the result of even one application. For your hair and scalp will look and feel 10 per cent better.

Apply a few drops of Selsun Sage hair oil. Selsun Sage is needed to destroy the germs that cause the dandruff. It forces the scalp to produce healthy hair and grow better and show more life and vitality. You need never be troubled by dandruff again. Follow the directions and you will be quickly restored to healthy by this simple process, which is absolutely harmless, and will not stain the hair or soil the dress.

Selsun Sage can be obtained from H. R. Underdew and druggists everywhere. It is not expensive.

PRESIDENTIAL ELECTORS.

They Are Not Compelled to Vote For Their Party Candidate.

A presidential elector is an independent agent. As a matter of practice he votes for the candidate chosen at the convention of his party, but he can legally break the instruction, just as a delegate to that convention could have done.

There have been a number of instances in our history where this has been done.

Unless a presidential candidate were to die the day before the election all the states would on the following day vote for two sets of presidential electors in the routine way.

These presidential electors who are chosen in November are obliged to meet in the various states on the second Monday in January following.

That is the day the president of the United States is actually chosen.

That these electors were intended to be free agents and to act as they deemed best is plainly inferred by the twelfth amendment to the constitution of the United States. It says:

"They shall make distinct lists of all persons voted for as president and of all persons voted for as vice president."

When that amendment was adopted after the Jefferson-Burr battle of 1801 there had never been any political conventions and the presidential electors of the various states were expected to form as many conventions and there to choose a president.

In practice the presidential electors act merely as automata. They permit the national conventions to do their thinking.

If one of the candidates selected by the national conventions were to die just prior to election day the national committee of that party would some time after the election and prior to the second Monday in January designate a candidate.

That recommendation would carry all the weight of a national convention. But in neither case is the recommendation binding.

Since national conventions were first held in Andrew Jackson's time no presidential candidate has died before the election.

When Van Buren was elected president no one was elected vice president. The United States senate then exercised its prerogative and elected R. M. Johnson vice president.

A presidential elector in a New England state refused to follow his party and vote for James Monroe "just so he could not be unanimously elected, as was George Washington."

Eleven states did not vote at all for president in 1804. In 1803 three states that had tried to secede could not vote.

In 1880 one of California's presidential electors who had been chosen by the Democrats refused to vote for Hancock. That state therefore gave Garfield one elector and Hancock five.—Philadelphia Ledger.

RUSH OF THE NIGHTHAWK.

It Sounds Like the Booming of Water Over a Creek Dam.

If you happen to be where night-hawks are found some time during the nesting season in May or June, you may hear a strange, booming sound, like the rush of water over a creek dam. You will seek vainly for its cause until you see a night-moth, with fiery wings, diving downward from the sky.

It is a peculiar performance, and you may suppose that the bird about to suicide, but when within a few feet of the ground he will change his course and soar steadily backward. At this moment you will hear the booming noise, similar to that which the creek dam makes as its head is hit by air passing through the bird's slender wing quills.

The nighthawk, or bullbat, as he is sometimes called, is confused with the whippoorwill, and little is known generally of his real character. He is a bird of the sky, passing the day perched motionless on a limb in wooded regions or on the ground in the treeless tracts or even on house tops when he happens to make his home in the city.

Probably he will not change his perch during the day, but at nightfall he will spread his wings and soar out in his search for insect food.—Philadelphia North American.

THE THIRCE-A-WEEK EDITION OF THE NEW YORK WORLD.

Practically a Daily at the Price of a Weekly—No Other Newspaper in the World Gives So Much At So Low a Price.

There has never been a time when a newspaper was more needed in the household. The great war in Europe has now entered its second year, with no promise of an end for a long time. These are world-shaking events, in which the United States, willing or unwilling, has been compelled to take a part. No intelligent person can ignore such issues.

The presidential contest also will soon be at hand. Already candidates for the nomination are in the field, and the campaign, owing to the extraordinary character of the times, will be of supreme interest. No other newspaper will inform you with the promptness and cheapness of the Thrice-A-Week edition of the New York World.

The Thrice-A-Week World's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Daily Star together for one year for \$4.50.

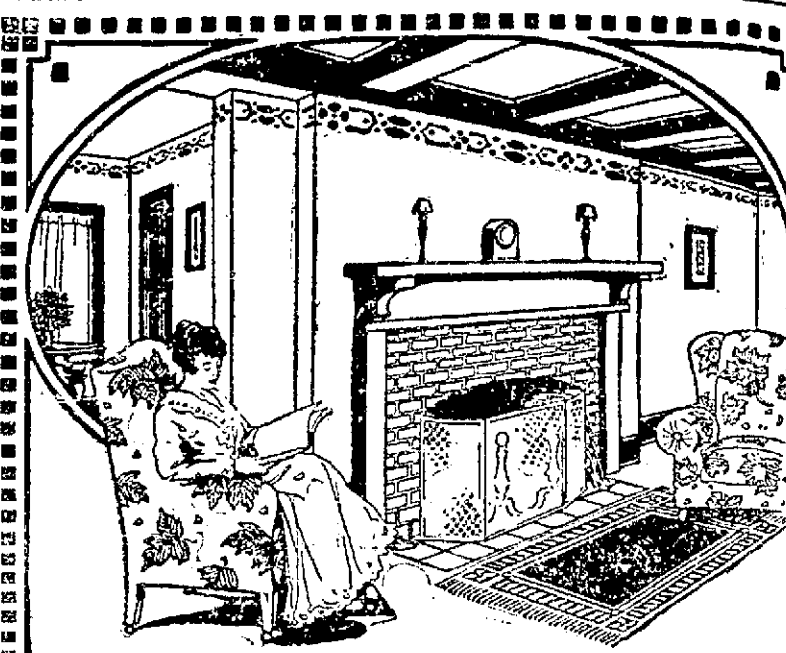

The regular subscription price of the two papers is \$5.00. Advt 11
